

Natural Regional Park of Conero

Protected area of Marche Region

Municipalities: Ancona – Camerano – Sirolo - Numana

Land size: 60,11 km²

The park has different levels of protection:

The Regional Park (Conero Regional Park) established in 1987 (law L.R. n. 21 23/04/1987)

3 Z.S.C. (Site of Community Importance) established according to the EU directive 92/43/CEE (IT5320006)(IT5320007)(IT5320005)

1 SPAs established according to the EU directive 79/409/CEE "Monte Conero" (IT5320015)

Area floristica protetta "Monte Conero" established by L.R. 30/12/1974, n° 52

Vincolo Idrogeologico by R.D. 2367/26

PPAR Marche, approved by D.A.C.R. n. 197 del 3 novembre 1989

Two Global Stratotype Section and Point (GSSP) in the Conero Park area, the former in the stratigraphic section of the abandoned Massignano quarry for the Eocene-Oligocene boundary (the Rupelian GSSP ratified by the IUGS in 1993), and the latter in the sea cliff section of Monte dei Corvi for the Mid-Late Miocene boundary (the Tortonian GSSP ratified by the IUGS in 2005).

... il regno dei falchi, delle aquile e
... i trionfi che regali calata di colosse
... hanno confortato e edificato
... questo tratto di versante si caratterizza per
... le caratteristiche liscie delle rovine
... indagando in questi e simili avventure
... la "Lascia Falchi del Corvo".

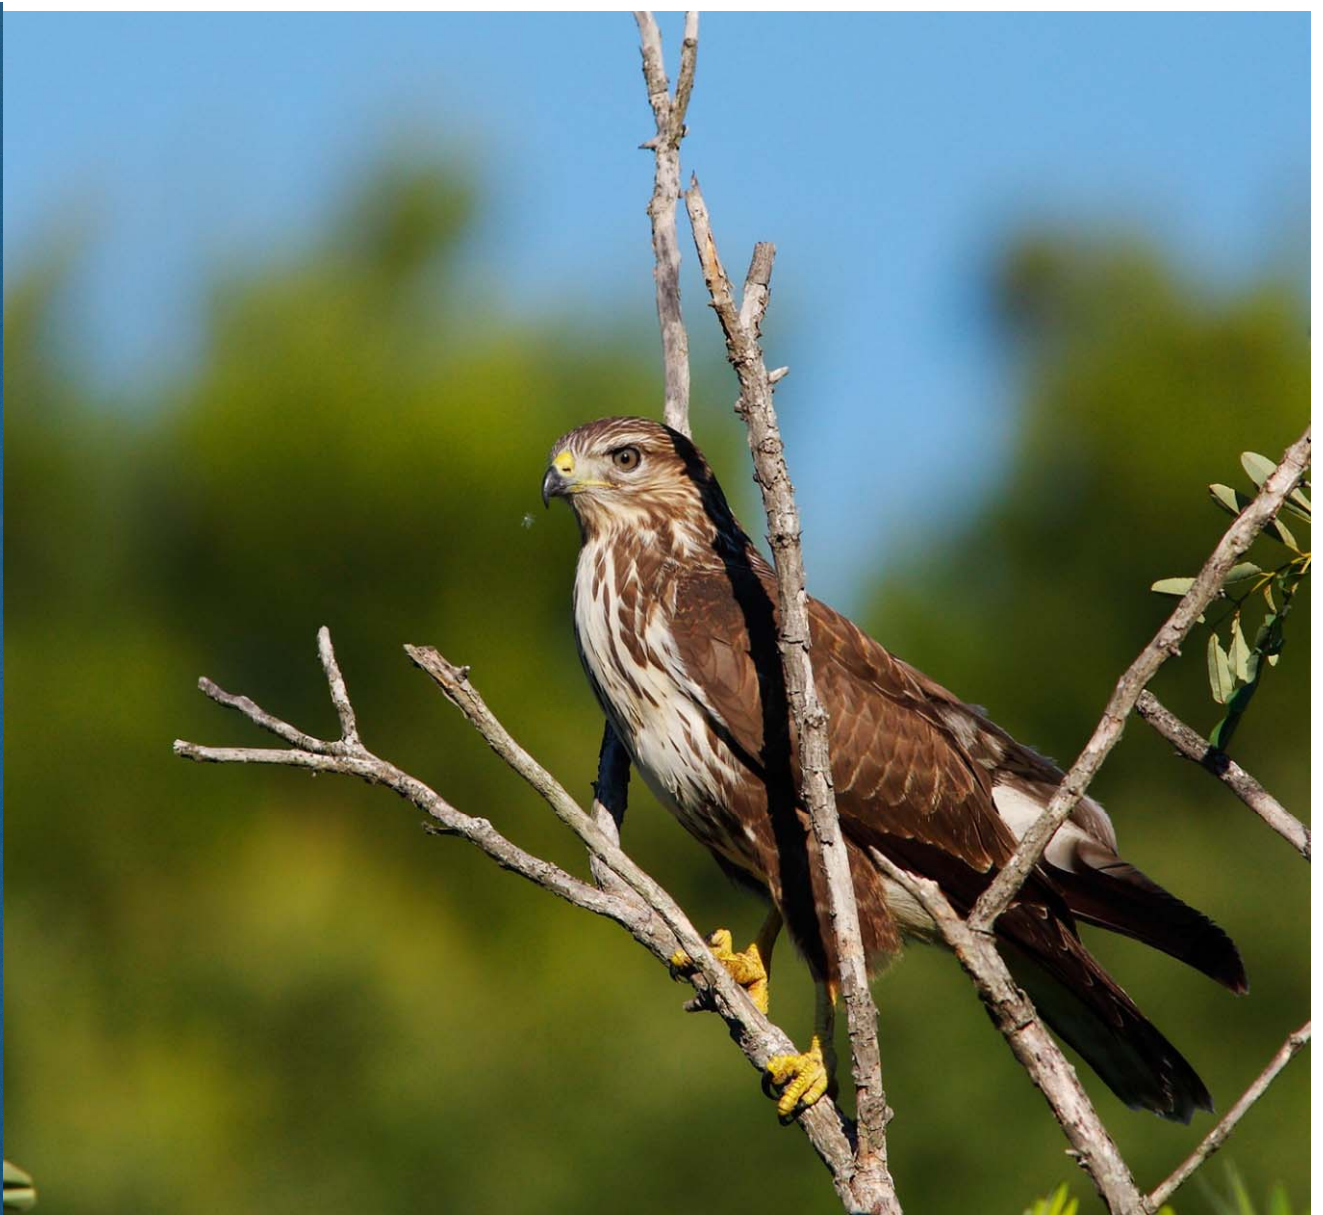

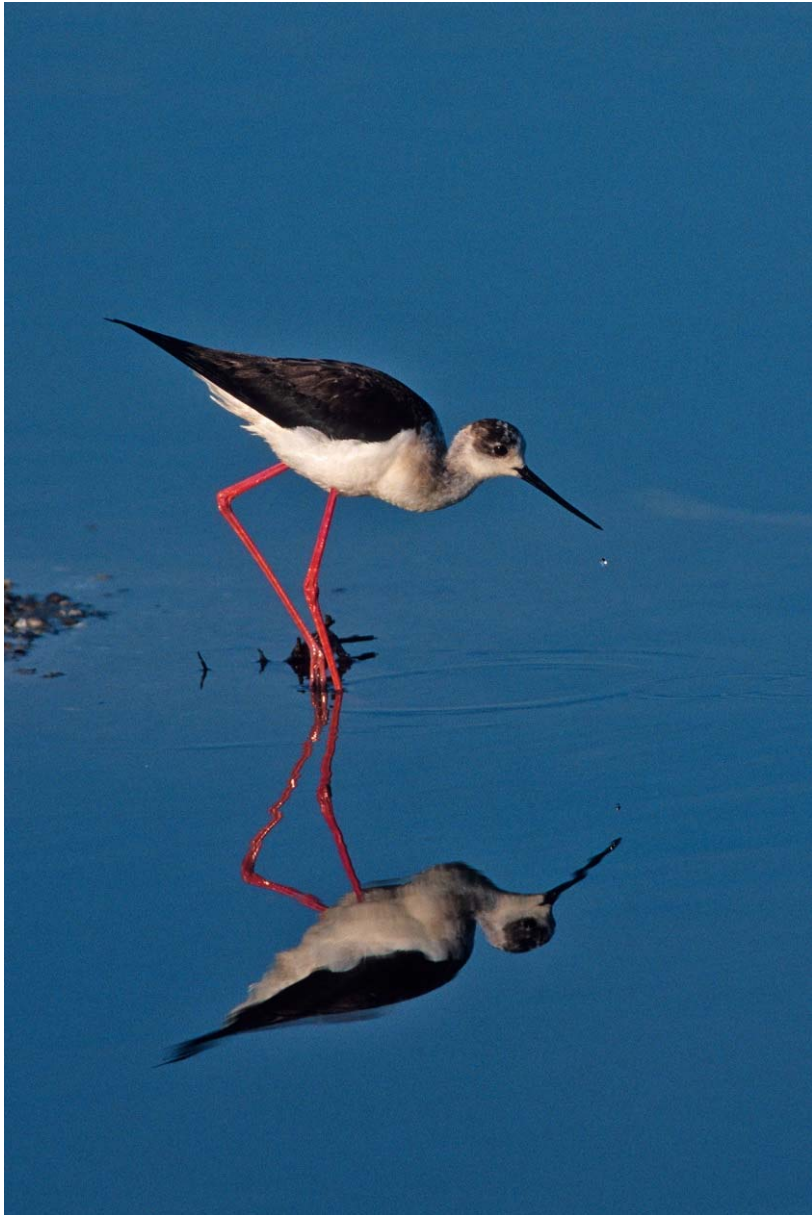

The Conero Park is the second most important place in Italy for the spring migration of birds of prey from the Africa. In the spring you can birdwatch over one thousand birds of prey in a single day, in particular the European honey buzzard, western marsh harriers and harries, as well as other soaring birds, such as cranes and storks. The long series of ultra-decennial censuses confirms a phenomenon of utmost importance with seasonal passages sometimes over 11,000 specimens of over thirty species.

More than 1200 species of plants can be observed in the park. The rich presence of butterflies - 476 species in the Conero - also witnesses the extraordinary richness of environments and the effectiveness of the Conero Park management.
